Lab Guide

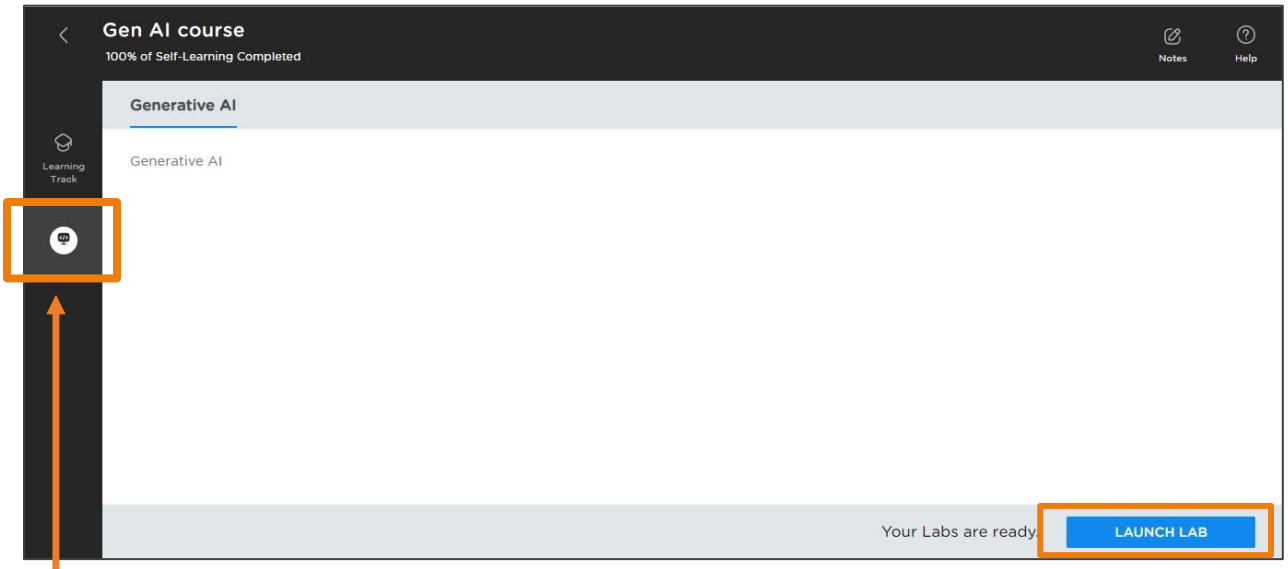

Note: The screenshots are only for your reference. Your LMS may look different depending on the course content.

This section will guide you to:

- Use labs for executing all the demos included in this course

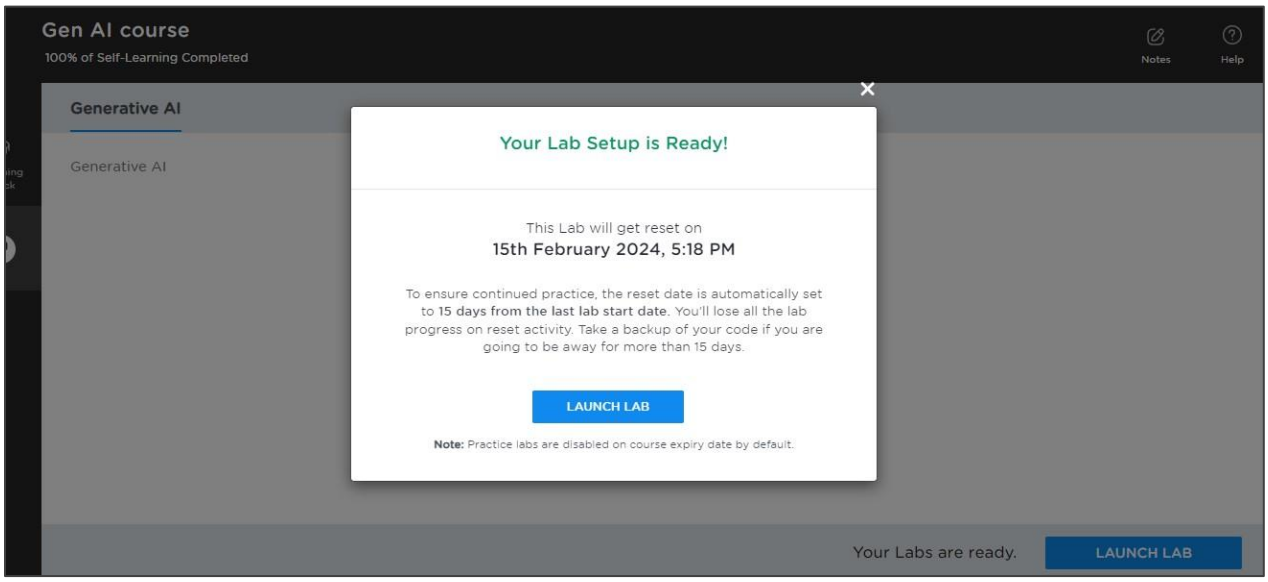

Step 1: Log into the Simplilearn LMS. Click on **Practice Labs,** and then click on **Launch Lab**

Click on **Practice Labs**

Click on **Launch Lab** to launch it

Step 2: A small screen will pop up in the middle of your screen with essential information about the lab; click on the **Launch Lab** button.

Step 3: End your lab by clicking the **End Lab** button
